

## Water Conservation Survey

**Here in Washington, we have an abundance of water and we don't think much of it when we waste some. Have you thought about how you use water? Please answer the following questions to help us understand what you know about water conservation.**

1. The Earth is covered with 70% water. How much do you think is suitable for drinking?
2. What is the number one waste of water?
3. How much water do you think you waste if you brush your teeth twice a day and leave the water running? (please answer in gallons)
4. Which takes more water — a 10-minute shower or a bath?
5. Does a dishwasher use more water than washing dishes by hand?
6. Do you leave the water running while putting soap on your hands while washing?
7. How much water does it take to make a serving of French fries? (in gallons)

PUTTING IT INTO PERSPECTIVE:

**The average Sub-Saharan African uses the same amount of water in a day as someone in a developed country uses when they do what?** (choose one answer)

- \_\_\_ Brush their teeth for two minutes with the tap running
- \_\_\_ Run a lawn sprinkler for a minute
- \_\_\_ Flush a toilet
- \_\_\_ Any of the above
